

Crustal Movements in the Eastern Alps and the North Mediterranean

Report of Slovenia

F.Vodopivec

Faculty for Civil and Geodetic Engineering, University of Ljubljana, Jamova 2, Ljubljana,
Slovenia, dusan.kogoj@fgg.uni-lj.si

Together with the experts from some other geosciences we have prepared the report about geotectonics, geology and seismology, which show all the heterogeneousness of Slovenia. On the base of GPS measurements we have made geodynamic map of Slovenia.
