

CAPSAT: clouds, aerosols, and precipitation satellite analysis tool

I. M. Lensky (1) and D. Rosenfeld (2)

(1) Bar-Ilan University, Ramt-Gan, Israel, (2) Hebrew University of Jerusalem, Jerusalem, Israel (lenskyi@mail.biu.ac.il / Fax: +972 3 5344430)

A tool for display and analysis of cloud, aerosols and precipitation was developed for the Meteosat second generation. The tool takes advantage of the rich spectral information to retrieve cloud microphysics and precipitation formation processes at daytime and nighttime.
