

## **Coordination between upcoming lunar missions**

B. Foing and ILEWG pannel members

ILEWG, c/o ESTEC/SCI-S , Postbus 299, 2200 AG Noordwijk, NL-Europe  
(Bernard.Foing@esa.int)

We'll review the legacy and lessons learned from Apollo, Luna, Hiten, Clementine, Lunar Prospector and SMART-1. We shall discuss with representatives from upcoming lunar missions (Chang'E, Selene, Chandrayaan-1, LRO, LCROSS and future landers) the status of mutual coordination. Specific synergies include science planning, intercalibration, coordinate systems, data analysis and interpretation, feed forward future landers, public outreach for lunar science and exploration.
