

SMART-1 Collaborations with Upcoming Lunar Missions

B.H. Foing (1) and SMART-1 Science and Technology Working Team

(1) SMART-1 Project scientist, SCI-S, ESA ESTEC, Postbus 299, 2200 AG Noordwijk, NL
(Bernard.Foing@esa.int)

We discuss ongoing collaborations between SMART-1 and upcoming Lunar missions (Chang'e1, Selene, Chandrayaan-1, LRO, LCROSS, future Lunar Landers and Rovers) . This includes: - Data analysis and PSA archiving; - Merging data between different missions; - Coordinate systems and reference grid; - Scientific interpretation; - Survey of possible landing sites; - Lessons from SMART-1 Impact experiment - Survey of illumination and resources for future exploration - New miniaturised instruments development; - Lessons from SMART-1 development; - SMART-1 science planning tool; - Public outreach and education.
