Film and Science Education: the combination.

Maarten Roos

Lisbon Astron. Obs., Portugal.

(planet.mrs@gmail.com)

Film, DVD, Interstreaming videos...they are becoming more and more part of the day-to-day life of everyone of us. As such, they have been making their way into education.

The tools for filmmaking are becoming ever more accessible to the general public (cameras, computers, editing software). I present a new concept of combing the audio-visual art and the science education.
